

ABOUT THE CONFERENCE

Pharmaceutical field is an ever growing sector in industry. The theme of the conference is drug design and evaluation of newer molecules. This conference is aimed to provide a great platform for the participants to explore various disciplines such as pharma chemistry, pharmaceuticals, pharmacognosy, microbiology, pharmacology and pharmacy practice. The topics on Computer aided drug design, development, and evaluation procedures will attract the participants in great numbers to recreate their knowledge to give improved productivity, quality, therapeutic outcome and management of disease with better patient compliance. The conference includes, plenary lectures, poster as well as oral presentations.

OBJECTIVE

The objective of the conference is to widen the knowledge of the participants towards drug design and evaluation methods in current scenario.

NATIONAL CONFERENCE ON DRUG DESIGN AND EVALUATION CURRENT SCENARIO

ABOUT US

RR College of Pharmacy at RR Institutions had been established by Shri. Y. Raja Reddy, in the year 2005, with the motto of providing quality pharmaceutical education to students through D.Pharm, B.Pharm, Pharm.D and M.Pharm courses. The college is affiliated to RGUHS and recognized by PCI. Recently, the college is accredited by NAAC with "A" grade. The department of Pharmaceutical chemistry and pharmacology are the ever glowing specialization in pharma field, which links many other disciplines to design and develop new drug like candidates. The departments are having a team of qualified and highly competent faculty members. They are mainly focused on the teaching learning process along with the R&D activities.

SINCE 1993

The college provides outcome-based education and training skills on various aspects of drug design, development and evaluation. The college has very good infrastructure and well equipped laboratories. The students are being trained practically to handle various analytical instruments available in the college. They are also instructed to follow the good laboratory practices. The students are molded in such a way that they are to be placed in good positions in industry, health care sectors, and government sectors and also in the academics.

The research areas in anticancer, antioxidant, antibacterial, anti-TB, antidiabetic studies are focused. The departments are receiving funding from various sources including RGUHS. Faculty members are encouraged to involve in research activities, and publish their work in reputed pharmacy journals which are indexed in Scopus, web of science and UGC care journals. The management also supports faculties to present their work in national and international conferences. The college is having several MoU with various hospitals, industries and health care sectors nearby.

VISION

Creating competent pharmacy professionals to positively impact healthcare of the society.

MISSION

- Providing conducive academic environment of higher standard that encourages interactive learning builds research abilities and provides opportunities for active professional network.
- Maintaining quality education through competent faculty members, skilled support staff and state-of-the-art infrastructure.
- Inculcating the values and commitment towards better healthcare of the society.
